If Oprah Winfrey had her book list from the Oprah Show, I think Myrna Ossin would be a guest on that show. She clearly has a vast wealth of knowledge of lists for your life. Everyone can use this book and learn from it. It is not only an archive of to-dorsquo;s lists, it is like having access to a brain of someone who thinks of everything. It was just fun to read cover to cover. I gave Lists for Living as a gift to my mother-in-law and she couldnrstquo;t stop talking about it. She even said, she learned ldquo;she should always put her contact information on the inside of her suitcase, not just the outside.rdquo; It's a surprisingly good resource book.1 of 1 people found the following review helpful.
